Brief Profile of Speaker:

Dr. Suman, Assistant Professor of Agricultural Statistics, Department of Agricultural Economics, Statistics and Extension Education, Faculty of Agricultural Sciences.

Organizers: Biotechnea Club, Faculty of Agricultural Sciences

Event Report:

a) **Introduction:** Biotechnea club, Faculty of agricultural sciences organized an Hands on training program on “Analysis of Variance with SPSS” for all the faculties and Research Scholars of SGT university in offline mode.

b) **objective:** The objective of the workshop was to provide training on the use of SPSS software for data analysis. The direct beneficiaries of this training will be the researchers using empirical research, final year students writing their dissertation, students studying econometrics and statistics, students doing internally or externally funded-projects along with a number of faculty members and staff of the university.

The workshop received an overwhelming response in terms of student and faculty participation. To foster the research activities and technical development of the to aid current students and advance their education by utilizing the rich experiences of former university students

c) **Brief content of Program:** The workshop started with a welcome Address by Dr. Suman who encouraged the participants to make the best use of the training workshop. There were 32 participants and the session began with introduction of types of data and scale of measurements. The speaker explained the importance of knowing the data type and data scale as this information is vital in selecting statistical techniques and methods for data analysis. All the participants were asked to install the free trial version of the SPSS software for the training purpose. After explaining about the data types, the speaker explained the Analysis of variance Technique in detail. How the
