Brief Profile of Speaker:

Mr. Ashish Singh Kuntal, the Director of Hawk Eye Forensic, Noida. He's an experienced managing director with a demonstrated history of working in the higher forensic industry. He's awarded with a certification in Incidence Response and Advanced Forensics from Cybrary. He's a skilled forensic expert in the field of computer hacking. Along with this, he's also a certified EC Council instructor from EC- Council University.

Organizers:

360° Forensic Association, Department of Forensic Science, Faculty of Science in Collaboration with Hawk Eye Forensic, Noida and under the aegis of Institution Innovation Council (IIC).

Report of the Training /Webinar/ Event / FDP Program:

Introduction: The program was initiated by the President and Secretary of the 360° Forensic association at 10 a.m. giving a brief about the workshop to the enthusiastic participants of the UG and PG courses. Afterwards, the Dean, Faculty of Science felicitated our resource person and graced the event by his motivating and informative speech. The session was then continued by Mr. Ashish Singh Kuntal who conducted this workshop to provide knowledge to the participants regarding Mobile Forensics.

a) Objective of the Training /webinar/ Event / FDP:

The objective of this workshop was to cover the various aspects of mobile forensics such as mobiles and different types of other smart devices, tools for forensic data recovery, encryption and decryption, data analysis, and court representation of various digital evidences. It will further educate the participants about the latest advancements in mobile forensic technology and methods to handle digital evidence recovered from mobile phones and other smart devices. Participants will also learn how to collect, preserve, and analyze digital data recovered from

smartphones, tablets, and other smart devices along with the procedure of court representation of such evidence.

b) Brief content of lecture-

The workshop was conducted for two consecutive days.

Day 1: The workshop started with an explanation on the maintenance of the chain of custody regarding the collected digital evidence by the investigators for maintaining the integrity and making it an admissible evidence in the court of law. Further, participants got to know about numerous softwares and tools that can be used to extract the data from mobile devices.

Participants learnt how to operate a Cellebrite kit for extracting advanced logical data from iOS devices i.e. recovering the present and deleted mobile artifacts from iOS devices.

Day 2: The President welcomed all the participants and the resource person who afterwards held the session in his hands and taught us to recover or extract data from pen drives using different methods along with the file system data extraction from an Android device. Participants also learnt about the minute details that are highly considered before the examination and analysis of the data from any device without which the complete process can go wrong.

As the session ended, the secretary of the 360° Forensic association gave a vote of thanks to our honorable resource person and appreciated the efforts of everyone who were a part of this great workshop.

Overall, the workshop conducted for the UG & PG students of Forensic Science was absolutely amazing and knowledgeable and many of them have started developing interest in the upcoming blooming field of cyber forensics.
