Overview

Shree Guru Gobind Singh Tricentenary (SGT) University, Gurugram stress upon continuous improvement of its teaching-learning as well as other academic process and policies.

SGT University, every year, rolls out a Structure Feedback Survey for its all stakeholders on the various parameters of teaching-learning and other academic processes to assess the quality of the aforesaid parameters & processes of the university for its continuous improvement.

The Structure Feedback Survey for the students was conducted by the Internal Quality Assurance Cell for the academic session 2020-21 and a detailed report and its analysis of the same is given hereunder as an overview of the survey.

Suggestions Received from the Students

Suggestions

<p>1. Teaching should be more appropriate.</p> <p>2. Need to give more attention to practicals.</p> <p>3. Awareness programmes about the related courses should be conducted.</p> <p>4. Theory classes can become more interesting by giving practical examples.</p>
<p>All good but sometime things are change and for me it seems a partiality</p>
<p>All the students who wants to see their problematic area in the answer sheet, should be provided a soft copy of their checked answer sheet on a request so that they can evaluate themselves.</p>
<p>Always supportive</p>
<p>Being a Physiotherapy, we are also right to learn how to give the injection to the patient, but it couldn't happened till now.. After all we are also from medical field. Then why we can't..? Sir plz think about it and make it for us... I'm really desires to learn how to give injection to the patient. People are asking you are a doctor, you don't know how to give injection in a future. Then what should be the our answer. Telling them we are physio. like that..? No, this is not the way to answer. We must know the things everything being a physio. Sir I'm requesting you to, plz add this things in Practical. At the last but not the least I want to say that the "KEEP CALM and LOVE PHYSIOTHERAPY".</p> <p>Thank you</p>
<p>Bus fee related suggestion. University have to return Bus fee of Lockdown months</p>
<p>Change the exam pattern</p>
<p>Change the exam pattern how it used to be befor.. bring back MCQs</p>
<p>Due to pandemic our practical learning was hindered, it would be great if the practicals were reconducted smoothly before the exams... For our practice</p>
<p>During the pandemic, the pressure over the studies gets the schedule quite hectic.</p> <p>There should be a little relief over the students during the online classes with assignments and classes both.</p> <p>Also, exam conduction should be through online mode as the students from different states find it difficult to reach the university in this harsh time.</p>
<p>Evaluation should be done properly and manageably. We are not aware of online mode of exams so should conduct tests by online mode so that there will be good practice.</p>
<p>Everything has been ruined due to online classes. No practical knowledge has been given which is totally a failure in our field.</p>

Everything will be best.

Exam paper must have objectives question and more choices in long questions.

Exam pattern should be changed

Excellent

Good

Good

Good 😊😊

I am Sachin Kumar bpt 2nd year . If we are talk about teacher , labs ,practicle all are good .

I have an issue regarding fees It is not correct to take full fees in online classes ... They only have the right to charge tuition fees, not any other additional fees ... We also deposit 6 months transportation fee. But college closes with in 1 month after depositing fees
Also offline exams, which university taken by us after teaching through online classes is not correct. I hope you understand our problems

I think MCQ should be reintroduced

Improve online classes experience

In online class teachers are not taking there class only 1 class is going on time others sub teacher are not taking there classes.. Or we are not getting and lab or practical knowledge. And college always ask for full semester fee without giving us proper classes of each subject. They take lab charges from us.. But due to online classes we are using all those facility then why college is charging for it. For us it's is very difficult to pay full fee payment.. College should remove the charges of those facilities, which we are not able to use due to online classes.. Like internet charges, library charges, laboratory, etc

More classes on exercises and modalities useful for future reference should be held

More practical classes of exercises and modalities should be held

More practical classes on exercises and modalities useful for future should be held

Nothing

Nothing

Nothing's

Obj stream of mpt needs more improvement
objective questions must added in exams
Objective type question must be there
Online classes should be continued
Online exams should be conducted keeping the nearby situations in mind.
Online exams should be conducted as per the current situations .(keeping the teaching mode in mind and surrounding conditions).
Overall good but I am not satisfied for practical section
Overall very good
Partiality should not be done
Please conduct online classes according to time table
Plz bring mcq back
Practical is also important than theory
Practicals could be better
Provide every book in library
Providing notes should be implemented
Take the offline classes
Teachers busy in meetings so syllabus not completed and at the time of examination teachers said that you are master student. You read all topics in your ug. If we read all topics in my ug than why Sgt university have long syllabus.
Thank you
The basic practical classes which can be explain through online classes can be conducted
The evaluation process should be more transparent to allow the students to see where they made mistakes and learn from them.
The motive of teachers should be changed to illustration for the students rather than only completing the topics just by reading slides. The business minds need to be changed to teaching mind.
The motive of teaching should be changed to illustration of student rather than only completing the topics.
The practical lab helps a lot to clear our concepts of theory.
There should be more and more practical demonstration
This university given the best study to the students
Very nice environment of studying ,can explore it
