1.	RESESEARCH AND METHODOLOGY (incl. use of statistical software packages) 10-11th JAN		

A crisp write up about you (150-200 words)

I graduated from Maharishi Dayanand University (M.D.U. Rohtak) and completed my Post Graduation in the speciality of Oral & Maxillofacial Surgery from Subharti Dental College, Meerut under Dr. B.R. Ambedkar University, Agra.

My training under the best of teachers instilled in myself the properties of focused hard work and never say die attitude.

My academic career started as a Senior Lecturer / Senior Resident in the Department of Oral & Maxillofacial Surgery at ITS Dental College, Muradnagar, U.P. Here, even though in a junior faculty position, I was incharge of emergency management and post-operative care of the patients admitted under the department. This exposure, unknown to myself, sowed in me some leadership qualities and the ability of making quick decisions.

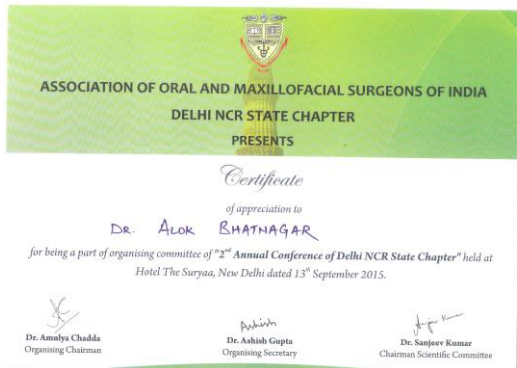

The second chapter of my career started when I joined SGT University in the position of Reader. Here, along with developing my surgical skills, I was fortunate enough to be provided an opportunity to further hone my leadership skills not only through the academic route, but also by attending extensive Faculty Development Programs organized by the university.

Presently, in my capacity as a senior faculty member, I am responsible for running the department on a day to day basis under the instructions of the head of the department, with active cooperation of my colleagues. I have also been entrusted with the responsibility of maintaining the equipment of the department.

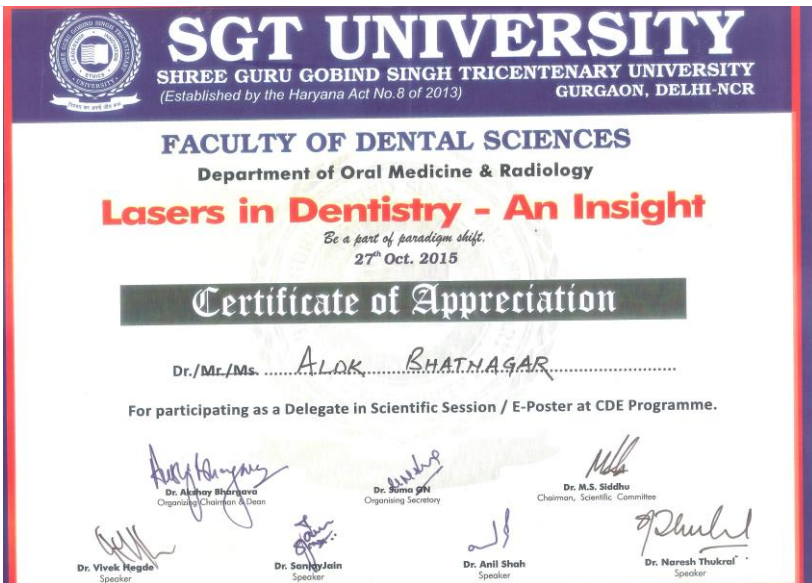

I am also mentoring a group of highly motivated undergraduate students and am happy to say that I enjoy a good rapport with them.

I hope to continue to work to the best of my abilities and to contribute to the growth of the department professionally, and personally as well.
