# Online **Marketing** and its impact on society

JESTIN

## Impact of online **marketing** on society

- In this online world, a simple banner advertisement can be both an advertisement and a direct marketing service. The banner raises the passive consumer's awareness of a product. It also encourages the consumer to pursue action by clicking on it.
- Digital marketers care about the consumer's online experiences for the simple reason that all of them -- good, bad, or indifferent -- influence consumer perceptions of a product or a brand.
- The web offers companies' ownership and control of all interactions with customers and thus creates both the ability and the need to improve their overall experience.

**Brief Profile of Speaker:** Dr Anil Kumar Yadav, Assistant Professor, Department of Physics, CCS University, Meerut, India

**Organizers:** SAVANT Association, Department of Physics

**Report of the Expert Talk:**

- a) **Introduction:** Continuous increasing demand of miniaturization devices as wearable and monitoring sensors will also increase demand of battery for powering these devices but use of such large amount of batteries will increase cost load as well as not good for environment. The alternate of powering these devices are nano generators which can convert ambient energy into useful electrical energy and give solution of the problems created by frequently replacement batteries.
- b) **Objective:** To motivate students about futuristic aspect of Nanogenerators
- c) **Brief content of lecture-**

Dr. Yadav discussed the importance of Nanogenerators and its application in energy conversion devices. He also discussed how the electrostatic charges created on the surfaces of two different materials during physical contact and separation in order to generate induced charges to harvest mechanical energy into electricity. More than 50 students and faculty members interacted with Dr. Yadav in this event and got interesting ideas.

- d) **Screenshots of Webinar/ Picture of Event:** Good quality picture with legends is mandatory

**Audience:** Students and Faculty Members of Faculty of Science

**Brief Report of the programme:**

A workshop on “Zotero” was organized by Department of Physics of the Faculty of Science. The lecture was delivered by Dr. Mukesh Kumar, Associate Professor, HOD, Department of Physics, Faculty of Science.

The Zotero allows students to advance their expertise on topic of the choice, and the writing process helps them remember what they have learned and comprehend it on a deeper level. To promote learning and research Savant Association at SGT University organizes workshop and expert talk frequently. A workshop on Zotero was organized by Savant association on 8th May 2021. Zotero is an important tool for research writing. It is a free and open-source reference management software to manage bibliographic data and related research materials. It has an unmatched ability to save high-quality publication data from websites, journal articles and newspapers. Word processor integration for Word, LibreOffice, and Google Docs makes it easy to manage citations.

## **Brief Profile of Speakers:**

- 1.** Dr. Subodh Kesharwani is currently working as an Associate professor at IGNOU
- 2.** Dr. Arko Bagchi is currently working as an Assistant Professor at Faculty of Engineering and Technology (FEAT), SGT University.
- 3.** Dr. Puneet Rana is currently working as an Assistant Professor at School of Mathematical Sciences, College of Science and Technology, Wenzhou-Kean University, China.
- 4.** Dr. Dharmendra Kumar Yadav is currently working at National Institute of Health and Family Welfare, New Delhi.
- 5.** Dr. Vishal Gupta is currently working as a Senior Customer Consultant at Elsevier
- 6.** Dr. Vikas Singh Rawat is currently working as an Associate Editor at Thieme-India, India

**Organizers:** Academic Association, SGT University in collaboration with Prodigy- A Science Association, Faculty of Sciences, SGT University.

## **Report of the Program:**

**Introduction:** Technology has become an integral part of the learning process, research and publications. With the implementation of the Common Core Learning Standards, the technical skills and knowledge required for research and academics are more valuable than ever. This workshop is providing the platform for researchers, academicians, and scholars to learn various technical tools and applications to excel in research and development.

**Objective of the Event:** To develop an understanding of the various technical tools and applications for research and development involving the importance of enforcement of technology in research.

## **Brief content of event:**

**DAY 1: 28<sup>th</sup> June 2021**

The workshop was started on 28<sup>th</sup> June 2021 at 10.00 am with the inaugural session. Initially, **Prof. (Dr.) Lakhwinder Singh, Dean, Faculty of Science** introduced the workshop's theme and welcomed all the dignitaries and attendees. He explained the importance of Research in our day-to-day life and the use of different tools used in the research study.

Then the workshop was addressed by **Prof. (Dr.) Sharif Ahmad, Pro-Vice-Chancellor (Research), SGT University**, shared his 40 years of research experience and explained how research varied in different decades. He addressed our guest of honor and chief guest and welcomed them on behalf of the SGT fraternity. He also thanked our chairperson for his constant support in different areas of research.

Later, our guest of honor **Prof. (Dr.) Gayathri Vishwanath Patil, First Director NIPER – Hajipur and Former Registrar, Central University of South Bihar, Gaya (Bihar)**, shared her 25 years of teaching, research, and administrative experience with all the attendees. She also showed her concern regarding the issues faced by the budding researchers and the required changes in the mindset for exponential growth in research and development.

Then our chief guest, **Prof. Ramesh Chandra, Founder Director, ACBR, University of Delhi and Former Vice-Chancellor, Bundelkhand University, Jhansi (Uttar Pradesh)**, graced us with his kind words and experience with our attendees. He suggested the essential pathways to grow in teaching as well as in Research. He also mentioned the role of private institutions and their caliber in today's scenario.

Followed by the **Prof. Ramesh Chandra address**, both the guest of honor **Prof. (Dr.) Gayathri Vishwanath Patil** and the chief guest **Prof. Ramesh Chandra** were felicitated by the SGT University fraternity. At the inaugural session, a vote of thanks was given by **Prof (Dr.) Vijay Sharma, HOD Department of Pharmaceutics, SGTCOP, SGT University**.

**What is MATLAB?**

- MATLAB stands for “Matrix Laboratory”.
- A tool for numerical computations with matrices and vectors.
- Integrates computation, graphics and programming in the same environment.

**Advantages**

- Ease of use.
- Powerful built-in routines and toolboxes.
- Good visualization of results.
- Popularity in both academia and industry.

**Disadvantages**

- Can be slow (MATLAB is an interpreted language).
- Must be licensed (it's not free).

**A typical publishing workflow**

**What Editors want?**

1. Paper is scientifically correct
2. If it reports something new
3. If it reports something significant
4. If the paper is of interest to the readers

**Top reasons for rejection by an Editor are:**

1. Topic of research not trending/not impactful
2. Poorly written abstract: Language errors
3. Too many/irrelevant Self-cites
4. Poor geographical distribution of citations
5. Recent/Older articles not cited
6. Leading scientists/top journal articles not cited

**Brief Profile of Speakers:**

- 1.** Dr. K. S. Nisar , Professor, Department of Mathematics, Prince Sattam bin Abdulaziz University, Saudi Arabia
- 2.** Dr. Harish Garg, Associate Professor, Thapar Institute of Engineering and Technology, Patiala, Punjab, India.

**Organizer:** The Bhaskara Association, Department of Mathematics, Faculty of Science

**Report of the Program:**

**Introduction:** Research Methodology is a way to systematically solve a research problem. It is a science of studying how research is done scientifically. Essentially it is the procedure by which the researchers go about their work of describing, evaluating and predicting phenomenon. It aims to give the work plan of research. It provides training in choosing methods materials, scientific tools and techniques relevant to the solution of the problem.

**Objective of the Event:** Following are the objectives of the workshop.

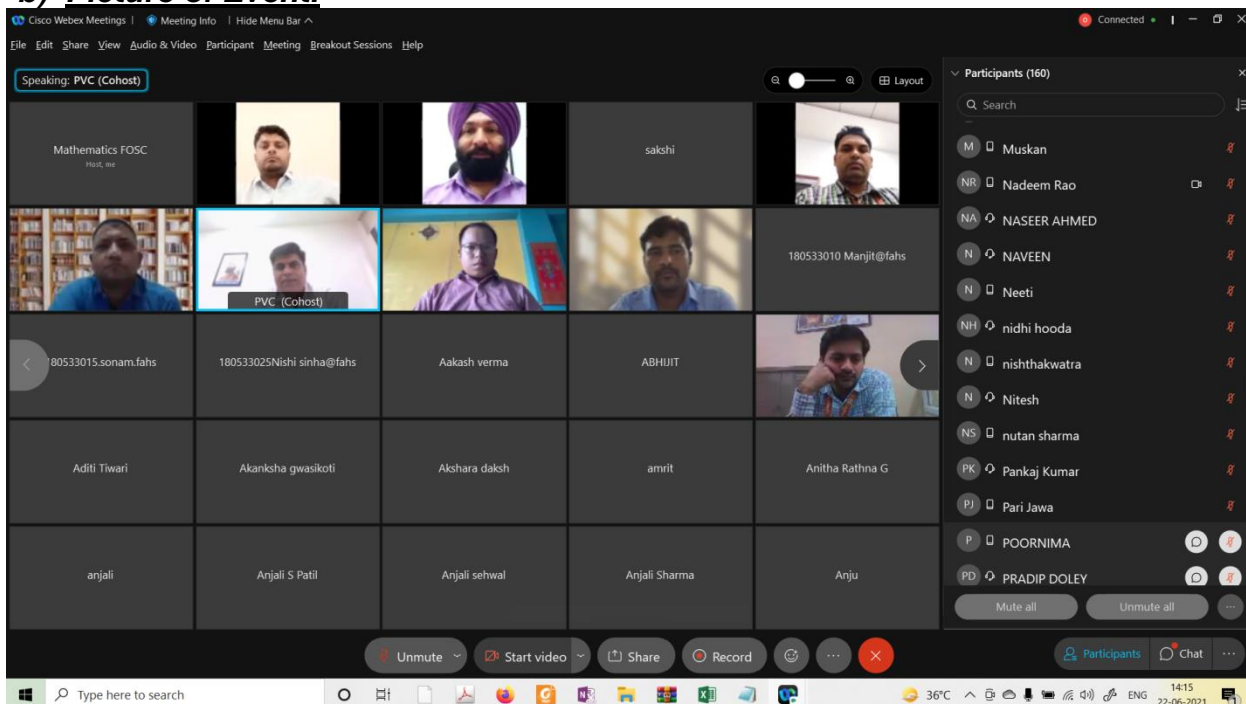

- (i) To develop skills for writing an effective scientific research article.
- (ii) To decide a suitable journal for submission of a scientific article.
- (iii) To learn removing the Plagiarism.
- (iv) To provide training in choosing methods, material, scientific tools and techniques relevant to the research problem.

**a) Brief content of event:**

Day 1 of the workshop started with a formal talk of PVC Academics Professor (Dr.) Vikas Dhawan about research and journals. After his talk our resource person Dr. K. S. Nisar began his presentation on development of skills for writing an effective scientific research article. He discussed about various components of a research article like how to write a good abstract, chronology of the content in the abstract and much more. Then he discussed about indexing and ranking of journals and gave many useful ideas about selection of a journal for paper submission. He also shared his thoughts about interdisciplinary research and gave many examples where concepts of pure mathematics were used in Engineering to produce high quality research work.

On day 2, Dr. Harish Gupta explained various types of plagiarism and their consequences. He also gave numerous examples of software that can be used to remove plagiarism. He discussed techniques of paraphrasing and gave valuable information about paper submission.

The screenshot shows a Cisco Webex meeting interface. The main presentation slide is titled "Aims and Scope" and contains two bullet points:

- Read the aims and scope of the journal before submission
- Structure your paper based on the aims and scope of the journal.

The slide footer indicates the date "6/23/2021" and slide number "31". The top of the interface shows the meeting title "Mathematics FOSC" and the host "Host, me". The right sidebar lists participants: "Participants (151)", "Panelists (4)" (Mathematics FO..., Prof. K S Nisar, Dr. Gurjot Singh, Ravi Tomar), and "Attendees (147)". The bottom status bar shows the time "14:38" and date "23-06-2021".

The screenshot shows a Cisco Webex meeting interface. The main presentation slide is titled "Some Basics-Binary Codes" and contains the following text:

A binary code represents text, computer processor instructions, or any other data using a two-symbol system. The two-symbol system used is often "0" and "1" from the binary number system.

The slide footer indicates the date "6/23/2021" and slide number "40". The top of the interface shows the meeting title "Mathematics FOSC" and the host "Host, me". The right sidebar lists participants: "Participants (152)", "Panelists (4)" (Mathematics FO..., Prof. K S Nisar, Dr. Gurjot Singh, Ravi Tomar), and "Attendees (148)". The bottom status bar shows the time "14:45" and date "23-06-2021".

Paraphrasing plagiarism

Paraphrasing means rephrasing a piece of text in your own words.

Paraphrasing without citation is the most common type of plagiarism.

Paraphrasing itself is not plagiarism so long as you properly cite your sources. However, paraphrasing becomes plagiarism when you read a source and then rewrite its key points as if they were your own ideas.

Additionally, if you translate a piece of text from another language, you need correctly cite the original source.

## Citing incorrectly

The key to avoiding plagiarism is citing your sources.

You need to correctly format your citations according to the rules of the citation style you are following.

If you don't include all the necessary information or you put it in the wrong place, you could be committing plagiarism.

**Report of the Webinar/ Event / FDP Program:**

**a) Introduction:**

Criminology is the scientific study of crime and criminals. Forensic criminology is a behavioral and forensic science, characterized by an integration of material from many sub-disciplines including forensic science, criminal investigation, criminalistics, forensic psychology, victimology, crime reconstruction, criminal event analysis, criminal profiling, practical experience, and more.

**b) Objective of the webinar/ Event / FDP:**

The activity was intended for the students of Forensic Science at SGT University to understand and apply the significance of criminological theories in the field of forensic science and forensic investigations.

**c) Brief content of lecture-**

The main emphasis of the talk was on:

1. To understand various theories of criminology
2. Learn crime and its social impacts.
3. Understand the factors influencing the criminal tendencies in an individual

**Report of the Webinar/ Event / FDP Program:**

**a) Introduction:**

Ballistics is the study of action, motion, and behavior of projectile in any given medium. Forensic ballistics deals with the examination, identification and comparison of firearms and related evidences encountered at the scene of crime. Keeping in mind the involvement of new types of modern firearms in crimes, improvised firearms and difficulties in their examination, the present talk was organized. Expert Mohammad Al Shamsi has great experience in crime scene investigation in the shooting incident cases. He has also authored numerous articles on the cutting-edge technology in forensic ballistics. The talk was intended especially for the students and the faculty members to give them an idea of the role of ballistic expert in crime investigation.

**b) Objective of the webinar/ Event / FDP:**

The activity was intended for the students of Forensic Science at SGT University to understand and apply the significance of emerging areas of Forensic Ballistics and technology in the field of forensic science and crime investigations.

**c) Brief content of lecture-**

The main emphasis of the talk was on:

1. To understand various types of firearms
2. To learn the historical view of firearms and the evolution of firearms.

The screenshot shows a Cisco Webex interface. The main stage features a green header with the Government of Dubai and Dubai Police logos. The title 'Forensic Ballistics Past, Present, and the Future' is displayed in green. Below the title, the speaker's details are listed: 1st Lt. Eng. Mohammad A. AlShamsi, FA/TM-AFTE, CPES, Head of Firearms and Toolmarks Section, Gen. Dept. of Forensic Science and Criminology, Dubai Police, with email maalshamsi@dubaipolice.gov.ae and a LinkedIn icon. A 'Q/A' graphic is on the left. The right sidebar shows a video feed of the speaker, a search bar, and a list of participants (80). The bottom of the interface includes controls for mute, stop video, share, and recording.

This screenshot shows a slide from the same webinar. The title 'Forensic Ballistics Past, Present, and the Future' is at the top. The slide content is titled 'Past - History of Forensic Firearm Investigation' and includes a bulleted list: '10 - 20 years before 1900 concept was in mind, but no reliable technique was available.', 'Rolling method on wax from Europe. (not reliable, uneven pressure)', 'Prof. Victor Balthazard (1909-1913) photographic superimposing procedure. (con: time consuming for exact magnification)', and 'Because of the Stielow case in NY in 1915. The comparison microscope technique for identification of firearms was developed by Charles Waite, Lt. Col. Calvin Goddard, Phillip Gravelle, and John fisher by 1925.' A portrait of a man is shown on the right. The footer of the slide repeats the speaker's name and contact information. The right sidebar shows the speaker's video feed and participant list (77).

- The next improvement was to eliminate the match, replacing it with a method that could generate fire on demand.
- Adapting household fire-starting implements, such as flint and steel, was the obvious choice. A flint creates a spark under conditions that would extinguish a match.

**Report of the Webinar/ Event / FDP Program:**

**a) Introduction:**

Cyber crime, unlike traditional crime which is committed in one geographical location, is committed online and it is often not clearly linked to any geographical location. Therefore, a coordinated global response to the problem of cyber crime is required. This is largely due to the fact that there are a number of problems, which pose a hindrance to the effective reduction in cyber crime. Some of the main problems arise as a result of the shortcomings of the technology, legislation and cyber criminology.

**b) Objective of the webinar/ Event / FDP:**

The activity was intended for the students of Forensic Science at SGT University to understand and apply the significance of crimie scene investigation tehniques in the field of forensic science and role of cyber forensic in forensic investigation.

**c) Brief content of lecture-**

Electrical stimulation using surface electrodes (d) (c) (b) (a) (e)

USB Inertial sensor Treadmill

FES: Pulse amplitude from 8 to 125 mA. Frequency of 40 Hz

- Bilateral quadriceps, hamstrings, dorsiflexors, and plantar-flexors, were activated by FES to initiate gait in ambulating individuals..After finishing intervention, there was no statistically significant difference between the two however, both groups experienced significant improvements from baseline balance measures at 4 and at 12 months.

**“Fundamentals of Solar Energy”**

**Type of event: Expert Talk**

**Date: 10/11/2020**

**Time: 11:00 A.M.-12:00 P.M.**

**Venue: Google Meet, Online mode**

**Organizer:** Department of Mechanical Engineering, FEAT-SGT University.

**Objective :** The main objective of the webinar “Fundamentals of Solar Energy” is to promote research-oriented projects in this field.

**About the Speaker/Guest:** Dr. Amit Kumar, Assistant Professor, Department of Mechanical Engineering, NIT-Surat, Gujrat., having 7+ Years of teaching and research experience. He has a great research profile in this field and a number of research papers in SCI Journals.

**Audience:** 47 students and faculty members from FEAT-SGT University.

**Brief Report:**

At SGT University, Faculty of Engineering and Technology, we organized a webinar on “Fundamentals of Solar Energy”. An expert talk was delivered on the importance of renewable energy resources especially solar energy by Dr. Amit

Kumar (Assistant Professor, Department of Mechanical Engineering, NIT-Surat, Gujarat) on 10th November 2020.

In the lecture the following points were discussed:

- Energy sources and Energy resources
- world-wide Consumption of the energy.
- Future Challenges for India as far as the energy is concerned.
- Power distribution in India.
- Need of solar energy.
- New targets for India in field of renewable energy resources.
- Latitude and Longitude angle of earth.
- Importance of angle of insolation on the earth.
- Solar angles in the different time periods.
- About solar energy collector.

Besides this, the solar instruments were also discussed. The instruments used for extraction and collection of solar energy in the form of electricity. The importance of the angles for solar plates in different time period of the day as well as the time period of a year. The position of different areas their time calculation with respect to the position and timing of sun have also been discussed.

**Learning Outcome:** It was very informative session on fundamental of solar energy. After attending this webinar, we understand the position of earth, sun and the importance of different angles to extract the maximum heat energy through the solar plates in the different time periods during a year and the different areas of our country as well.

Besides this, Solar will become a crucial component of India's energy portfolio in the coming decade. The Government of India is keen on using a renewable source of energy and is undertaking various measures to promote green energy. The government has implemented various policies and regulations to boost solar energy generation in the country as there has been increasing energy consumption due to rapid economic development and industrialization.

**Shortcomings:** (i) Less Audience

The screenshot shows a Google Meet interface during a webinar. The main window displays a presentation slide titled "New targets for Renewable" with a subtitle "Target for JNNSM– 22,000 MW up to 2022 (SPV & CSP)". The slide contains a table titled "Increased Targets for Renewable Power" with two columns: "Sources" and "Capacity (in MW)". The table lists Solar (1,00,000), Wind (60,000), Biomass (10,000), and Small hydro (5,000), with a total capacity of 1,75,000 MW. ## **Report of the Webinar/ Event / FDP Program:**

### **a) Introduction:**

SGTU under the aegis of FEAT, Dept of Computer Sci and Engg. has been organizing various activities in order to commemorate the 400<sup>th</sup> Birth Anniversary of Sri Guru Tegh Bahadur ji. In the continuation of this series, Dept of Computer Sci & Engg organized a webinar followed by Quiz on the topic “*Shree Guru Tegh Bahadur: Life, teachings and its impact on Indian history*”. The webinar was organized for all students and faculties of SGTU. Dr Manpreet Singh, Sikh Scholar was the Keynote Speaker for the webinar. Dr Sahil Vashisht in his welcome address averred that one can learn a lot of values of life from the teachings of Guru Tegh Bahadur Ji. We can only give true tribute to Guruji by implementing His teachings & ideas of life in our practical life & by dedicating our lives to the people’s welfare by renouncing all kinds of evil in the world. The workshop was conducted virtually with a duration of 1.30 hour on dated 20.04.2021, started at 10.00AM.

### **b) Objective of the webinar/ Event / FDP:**

Dr Manpreet Singh during his address acquainted the students with the life journey of Guruji & stressed on the fact that Guruji gave supreme sacrifice for the whole humanity so that the whole world should be able to tread on the path of righteousness. He stressed on the fact that we should all respect with our heads held high keeping in mind Guruji’s sacrifice & should follow the footsteps of Guruji in fighting against injustice & oppression in the society.

**Report of the Webinar/ Event / FDP Program:**

SGT University- Faculty of Law organizes a virtual guest lecture on "**Importance of Studying History in Law Schools**". History is about the activities of human beings in the past. But all activities of human beings cannot be counted as history. It is only unique, significant, and profound events that would be considered as the subject matter of history.

The speaker explained the importance of history for law graduates.

**Report of the Webinar/ Event / FDP Program:**

The investigation is of prime importance in a trial of the case. It is the foundation on which the whole case rests and revolves. The rights available to the accused as well as to the victim are to be protected from the initial stage of a criminal investigation since it affects the trial to be conducted in the court.

To know about the journey from Investigation to trial Faculty of Law SGT University, Gurugram is organising a webinar on the “**Introduction of CrPC: Journey from Investigation to Trial**”.

To guide us, we will have Dr Divyanshu Priyadarshi, Assistant Professor Faculty of law Vishwakarma University Pune.

**Name of the faculty: Faculty of Engineering & Technology**

**Name of the event/ programme: Webinar on Green Concrete**

**Type of the programme: Webinar**

**Date: 27 May 2021.**

**Time: 10:00AM to 11:00AM**

**Venue: Google meet online mode**

**Objective of the programme:** The main objective behind this WEBINAR is to provide complete knowledge on green concrete. The concrete is the highest used man made material with more than 10 billion cubic tones consumption annually. But the conventional concrete which has its core ingredients as cement, sand, coarse aggregate and water causes a significant environment pollution in its making

**Participants: B.Tech and M.Tech students**

**Brief Report of the programme:** The Department of Civil Engineering, Faculty of Engineering & Technology, organized a Webinar on Green Concrete in association with JK Cement on 27 May 2021.

The concrete is the highest used man made material with more than 10 billion cubic tones consumption annually. But the conventional concrete which has its core ingredients as cement, sand, coarse aggregate and water causes a significant environment pollution in its making. The cement manufacturing required a lots of energy and emit very high quantity of carbon dioxide resulting third highest Carbon Dioxide emitter and manufacturing/mining of other ingredients like sand, aggregate also cause significant environment pollution. Therefore the conventional concrete making is becoming ecologically unsustainable and it is the need of the hour that we start moving toward the use of Green Concrete.

***In simplest term green concrete is one which consume less and produce more or better performance.***

Mr. R.K. Jha from JK Cement delivered very informative talk on green concrete, which include its manufacturing, reusability, availability and performance. It is the material that exhibits better functional performance and capabilities than ordinary concrete. The green concrete is considered a maintainable construction material as it consumes less natural resources and less energy and

emits a smaller amount carbon dioxide. It also reduces the use of water by almost 20 %. The market for this product is seen emerging in the developing countries.

One of the main plus points of using green concrete is it reduces industry's CO<sub>2</sub>-emission by 30 %. Green concrete requires less maintenance and repairs. But some of its limitations are it uses stainless steel which leads to cost of reinforcement increases.

He also talk about the acceptability of green concrete by the construction industry and how many developed country are using as high as more than 70% in their construction.

Government plays an important role to carry out various types of works in Execution stage from accepting the drawing to signing of NOCs.

#### **c) Brief content of lecture-**

The Department of Civil Engineering organized a webinar on “Requirements for Execution of Government Works” on December 01, 2020 from 11:00 AM to 12:30 PM. The theme of the webinar was focused on Government plays a vital role In the execution of any project work, whether related to Construction Industry, Construction Management, Estimation and Costing, and getting a Non – Objectionable Certificate (NOC) from the respective state and central government

agencies after the work is done and it put to open for public use. Some of the important topics covered are:

1. Tenders and Contracts
2. Costing
3. Rates
4. Sanctions and Bill of Quantities (BOQs)

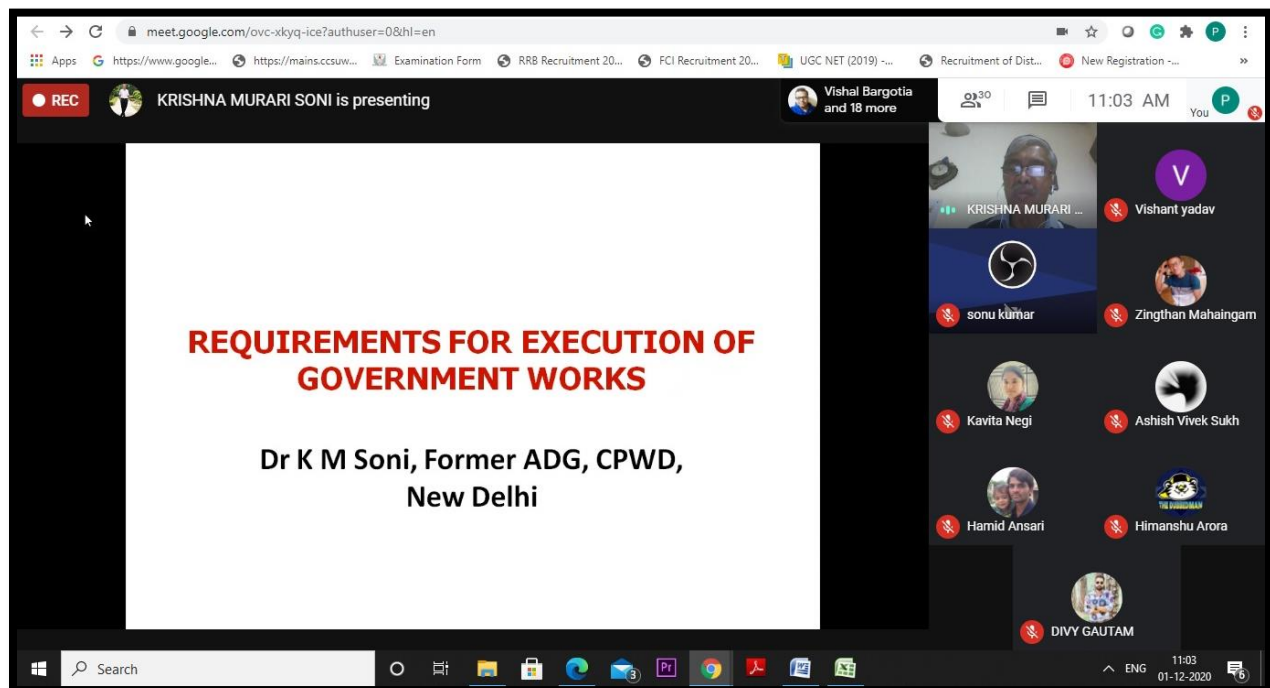

After the speaker ended his presentation, the Q and A Session was conducted for 30 minutes and meanwhile, a Feedback Form is also filled by the participants.

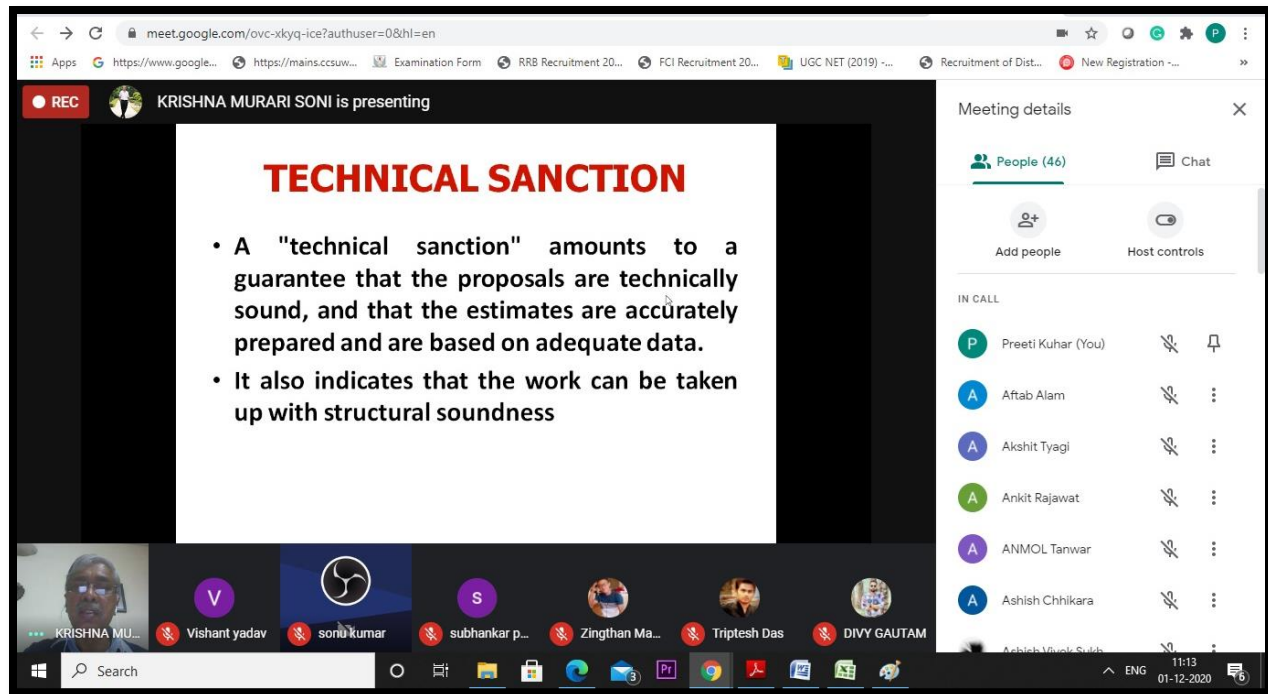

**Learning Outcome:** The webinar was able to make students and faculty members understand the importance of Government Roles in the execution of work.

### Report of the Webinar

#### a) Introduction:

Project Management plays a vital role in the success of any project since it involves the process of leading the team to achieve the primary goal, considering both time and economy.

**b) Objective of the webinar/ Event / FDP:**

The primary challenge of a Project Manager is to achieve all the project goals within the given constraints. The main aim of this webinar is knowing the importance of project management and how economics and time have to go parallelly for completion of a project successfully.

**c) Brief content of lecture:-**

The Department of Civil Engineering organized a webinar on “Fundamentals of Project Management” on December 09, 2020 from 11:00 AM to 12:30PM. The theme of the webinar was focused on the basic understanding of a project and project management, followed by the characteristic of a project. The, difference between a project and an operation was discussed with suitable examples. The role of a Project Manager and one’s characteristics was also discussed. The various Project Management Process Groups of Initiation, Planning, Executing, Monitoring & Controlling and Closing were discussed, with their inter – relationships. Discussion on the failure of projects were discussed, followed by 10 basic steps of successful Project Management and successful Project Managers.

**Learning Outcome:** The webinar was able to make students and faculty members understand the need and essential of Project Management and its application in the construction industry.

**Shortcomings:**

1. Less audience

Projects are also similar to Operations in many respects

- Performed by individuals
- Have many constraints, including resources
- Need to be planned, monitored and controlled
- Performed to achieve organisational goals and objectives

All of the following is true about Projects and Operations EXCEPT –

QUIZ TIME!

A. Operations are ongoing endeavours that produce repetitive outputs, with resources assigned to do basically the same set of tasks according to the standards institutionalized in a product life cycle, whereas projects are temporary

B. Projects require project management activities and skill sets, whereas operations require business process management, operations management activities, and skill sets.

C. Projects can intersect with operations at various points during the product life cycle. At each point, deliverables and knowledge are transferred between the project and operations for implementation of the delivered work.

D. Because of their temporary nature, projects cannot help achieve an organisation's long term goals. Therefore, strategic activities in the organisation can be generally addressed within the organisation's normal operations.

**Report of the Webinar/ Event / FDP Program:**

**a) Introduction:** The sub – discipline of “Geoinformatics” is totally rely on the application of GIS and Remote Sensing in the field of Surveying and Levelling.

**b) Objective of the webinar** The main objective behind this webinar is to give an insight to the emerging discipline of GIS and Remote Sensing in the disciplines of Civil Engineering such as Structural Engineering, Transportation Engineering, Environmental Engineering, Water Resource Engineering and Geotechnical Engineering.

**c) Brief content of lecture-**

The Department of Civil Engineering organized a webinar on “A Walk Through – GIS and Remote Sensing” on November 28, 2020 from 11:00 AM to 12:30PM. The theme of the webinar was focused on emerging growth of GIS and Remote Sensing in the application areas of Civil Engineering. The webinar commenced with the basic introduction and fundamental concepts of GIS and Remote Sensing. As the webinar proceeds, the speaker throws a light on the in – depth understanding of GIS and Remote Sensing, how the data is taken, how the data is presentable and how can we read the data. Then, the discussion on the various software platform which are used to work on GIS and Remote Sensing such as

QGIS, ArcGIS, Google Earth Pro and many more. The various application of GIS and Remote Sensing is discussed in the following areas:

- Urban Planning
- Disaster and Hazard Planning
- Location Intelligence
- Agriculture Farming Monitoring
- 3D Data Modelling

After the speaker ended his presentation, the Q and A Session was conducted for 30 minutes and meanwhile, a Feedback Form is also filled by the participants.

**Learning Outcome:** The webinar was able to make students and faculty members understand the need and essential of GIS and Remote Sensing in Civil Engineering in its various sub–disciplines.

**Shortcomings:**

## GEOGRAPHIC INFORMATION SYSTEM (GIS)

- Geographic Information Systems (GIS) is a fundamental tool using geographic locations.
- They provide a means of enquiring into geography through mapping. By extending and deepening the way that maps are used to explore geographical issues, GIS can re-emphasise the spatial dimension of geography, which is one of the defining characteristics of our subject clarifying its unique role and importance in the school curriculum.
- Using GIS therefore encourages pupils to think spatially, or geographically.

**Objective :** The main objective of the webinar “The Power of Questioning” is to make the learning process more effective and creative.

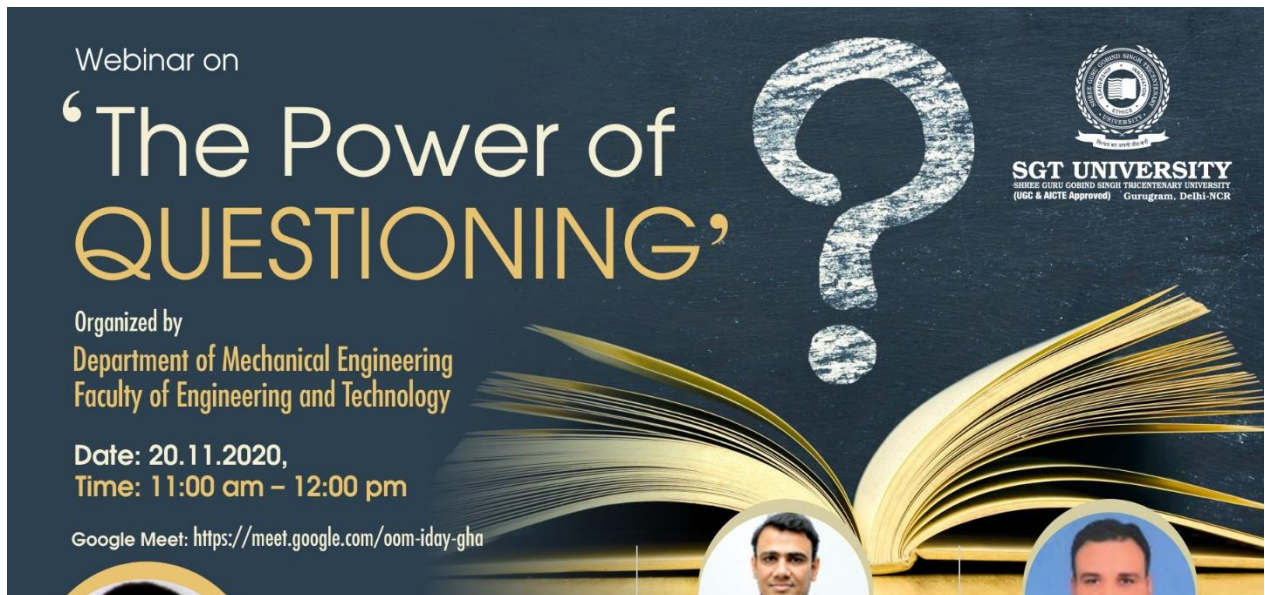

**About the Speaker/Guest:** Mr. Prashant Gera, Agile Coach/ Product Coach, The Digital Group Infotech, Software Company in Pune, Maharashtra, having 12+ Years of working in IT industries.

**Audience:** 37 students and faculty members from FEAT-SGT University.

**Brief Report:**

At SGT University, Faculty of Engineering and Technology, we organized a webinar on “The Power of Questioning”. An expert talk was delivered on the importance of questions in our life by Mr. Prashant Gera (Agile Coach/ Product Coach, The Digital Group Infotech, Software company in Pune, Maharashtra) on 20th November 2020.

He started his lecture with the approach that the questions are the first step toward creativity and justified the fact with the help of real-life examples. He discussed about a number of success stories which comes out from the word 'why'. He suggested that we should always spend our maximum time to understand the statement of problem and not for the solution. This approach always gives better results and help us to take right decision. He also discussed about the different stages in the process of creativity and advised that the fear is the enemy of curiosity. He suggested that we should always know that what we are doing, why we are doing this, what will I do after completing this and what I am leaving behind during this period of time.

**Learning Outcome:** One of the key outcomes of this expert talk that we shouldn't stop thinking about improvements in the existing technology. When ever we don't raise the question on the existing situation, nothing is going to be changed and the change is at most necessary for the betterment. Besides this, we received another motivation of asking the question and feel proud on your stupid/meaningless question because according to him no question is meaningless. We learn something from each question, even the teachers/trainers learn from every question raised by the students/listeners.

**Objective :** The main objective of the webinar “Scope and Applications of Computational Fluid Dynamics” is to promote research-oriented projects in this field.

**About the Speaker/Guest:** Dr. Rohan R. Pande, Assistant Professor, Department of Mechanical Engineering, NIT-Surat, Gujrat., having 7+ Years of teaching and research experience. He has a great research profile in this field and a number of research papers in SCI Journals.

**Audience:** 41 students and faculty members from FEAT-SGT University.

**Brief Report:**

At SGT University, Faculty of Engineering and Technology, we organized a webinar on “Scope and Applications of Computational Fluid Dynamics”. An expert talk was delivered on the importance, scope and applications of Computational Fluid

Dynamics in the different sectors and various disciplines by Dr. Rohan R. Pande (Assistant Professor, Department of Mechanical Engineering, NIT-Surat, Gujarat) on 19th June 2021.

In the lecture the following points were discussed:

- History of Computational Fluid Dynamics
- Scope and applications of CFD in different sectors.
- CFD in Automotive Engineering
- CFD in Biomedical Engineering.
- CFD in Civil Structures and Energy Sectors.
- Electronics and Telecommunication cooling system design.
- Heating/Ventilation and Airconditioning system design.
- Applications in IC Engines, process plants and in sports also.
- How CFD works and software requirements.

Besides this, a number of CFD based projects have been discussed that can be useful for the B. Tech as well as M. Tech students in their project and research work. This technique and the project can also be utilized by the faculty members in their research work.

## **Report of the Webinar/ Event / FDP Program:**

### **a) Introduction:**

The webinar was planned to sensitize students about the field of Data Science. Organizations are investing heavily in data science talent to stay or move ahead of their competitors. As a data science aspirant, you couldn't have picked a better time to change your career!

However, switching to a career in Data Science has its own challenges for freshers as well as for experienced professionals. Some of the most common challenges faced by Data Science aspirants are:

- Can non-technical people transition to Data Science?
- Will an experienced professional be treated as a relative fresher when he/she makes a switch to data science?
- Which Data Science role should they consider?
- Will their existing skill-set be useful in Data Science?
- and more such questions.

To help address all these concerns and "How to make a successful switch to Data Science" The webinar was conducted virtually with a duration of 1 hour on dated 28th May, 2021.

### **b) Objective of the webinar/ Event / FDP:**

The Objective of this workshop is to encourage the students about the field of Data Science and how they can transit their career as Data Scientist.

### **c) Brief content of lecture-**

The webinar was started with the welcome of speaker Ms. Shreya Gupta. She elaborates about the importance of why organizations are investing heavily in Data Science field. Then she talked about the challenges one can face while switching to a career in Data Science. Then moving forward the discussion on that Data Science is Not an AI. The key highlights of the webinar was about various possible career paths in the field of Data Science. Then at last, the students and faculty members asked the questions and the webinar was ended on thanking the expert for her valuable insights with the students.

## “IMPACT OF NANOMATERIALS ON THE TRIBOLOGICAL PROPERTIES OF LUBRICATING OIL”

Type of event: GUEST LECTURE

Date: 26/03/2021

Time: 2:30 P.M.-3:30 P.M.

Venue: Google Meet, Online mode

**Organizer:** Department of Mechanical Engineering, FEAT-SGT University.

**Objective :** The main objective of the webinar “ Impact of nano materials on the tribological properties of lubricating oil” is to upgrade the knowledge of students towards the tribological characteristics of nano particles which helps to promote research-oriented projects in this field.

**About the Speaker/Guest:** Dr. Sumit Chaudhary, Assistant Professor, Department of Mechanical Engineering, Thapar Institute of Engineering & Technology, Patiala., having 8+ Years of teaching and research experience. He has a great research profile in this field and a number of research papers in SCI Journals.

**Audience:** 42 students and faculty members from FEAT-SGT University.

### **Brief Report:**

At SGT University, Faculty of Engineering and Technology, we organized a webinar on “Impact of nano materials on the tribological properties of lubricating oil”. An expert talk was delivered on the tribological properties of lubricating oil, nano particles and its formation, blending techniques, importance of nano particles, Rheological behavior of nano particles especially in IC engines by **Dr. Sumit Chaudhary** (Assistant Professor, Department of Mechanical Engineering) Thapar Institute of Engineering & Technology, Patiala on 26-03-2021 .

In the lecture the following points were discussed:

- Lubricating Oils

- Need of Nano particles.
  - Preparation and characterization of Nanolubricant
  - Nano Fluid preparation
  - Tribological Investigation of nano particles.
  - Rheological study.
- 
- Friction losses in IC engine.
  - Future Challenges for India as in research area of Nano technology.
  - About the Stribeck curve.
  - New targets for India in field of Nano Technology.
  - Discussed about ball disk Tribometer.
  - Importance of extreme pressure analysis.

Besides this, the magnetic stirrers, ultra sonicator, were also discussed. The instruments used for preparation of nano particles. These are used in coatings as filler materials, opacifiers and semiconductors. With relevance to the coating industries, nano particles have shown significant potential for much stronger, tougher and durable coatings. The various methods used in measuring the stability of nano fluid are also been discussed.

Type of event: GUEST LECTURE

Date: 06/04/2021

Time: 11:30 A.M.-1:00 P.M.

Venue: Google Meet, Online mode

**Organizer:** Department of Mechanical Engineering, FEAT-SGT University under the aegis of IQAC.

**Objective:** The main objective of the webinar “Diversity of Womanhood: Changing Roles of Women in Contemporary Times” is to upgrade the knowledge of students towards the women’s role have been more comprehensive, whereas in most countries the transformation of the male role has barely started.

**About the Speaker/Guest:** Dr. Sapna Sharma is working as an Assistant Professor at Amity University Haryana. With a career span of more than two decades, she has handled various administrative and literary assignments. Recipient of Grant of five lakh eighteen thousand (Rs. 5,18,000) from University Grants Commission for conducting Five Days Residential Workshop on Capacity Building of Women Managers in Higher Education, she has been a trainer trained by UGC to conduct workshops on women empowerment.

**Audience:** 42 students and faculty members from FEAT-SGT University.

### **Brief Report:**

At SGT University, Faculty of Engineering and Technology, we organized a webinar on “Diversity of Womanhood: Changing Roles of Women in Contemporary Times”. An expert talk was delivered on the Changing Roles of Women in Contemporary Times and Today’s woman experiences a new form of empowerment and independence. She does not want to become a victim of societal boundaries and patriarchy rather a thinking subject, capable of carving a niche

for herself as an individual by Dr. Sapna Sharma, Assistant Professor at Amity School of Liberal Arts, Amity University Gurugram on 06-04-2021.

In the lecture the following points were discussed:

- Diversity of Womanhood
- Industrial revolution
- Positive impact
- Negative impact
- Women role in history of technology
- Role of human in economic development

Besides this, women were the continual victims of social and economic discrimination. Upper- and middle-class women's choices were limited to marriage and motherhood, or spinsterhood. Both choices resulted in domestic dependency. While they could find jobs as shop girls or factory workers, women were discouraged from being wage earners by the belief that women who earned wages were "unnatural."

### **a) Introduction:**

SGTU under the aegis of FEAT, Dept of Computer Sci and Engg. has organizing a webinar on the topic “ Machine Learning in data analysis with various tools” with the help of Mr Harshit Anand for industry understanding. The workshop was conducted virtually with a duration of 1.30 hour on dated 21.04.2021, started at 10.00AM.

### **b) Objective of the webinar/ Event / FDP:**

Learn what are sub-fields of artificial intelligence and Machine Learning

- Review challenges with respect to practical implementation of Artificial Intelligence
- Discuss Near and Far Future of Artificial Intelligence
- Understand Impact of Machine Learning & Artificial Intelligence in Data Science
- Know various Opportunities and Challenges in Data Science Careers.

### **c) Brief content of lecture-**

With the abundance of data being generated every day, the rise of new automated technologies is inevitable. Mr Harshit Anand , Trainee decision Scientist MU Sigma , as he explores the wonders of Machine Learning and AI. A whole world is relying on machine learning to develop mission-critical applications to empower the businesses. However, there are a series of challenges one has to tackle in the machine learning application building lifecycle — right from combining multiple data sources to feature engineering which means finding the

right parameters to extract from the data for model building. So, what's the best approach to AI/ML applications and how does one identify the data sources to build models. With demand for machine learning increasing, it's up to the data scientists and developers to stay updated with the latest trends to get the best performance out of their applications. With machine learning becoming a critical enabler for every sector, this webinar is specifically aimed at machine learning students, engineers and data scientists to help them understand the fundamental concepts of AI & ML and help them leverage cloud machine learning tools. During this seminar participants were introduced to the world of machine learning, artificial intelligence, and thinking machines.

Three screenshots of a Zoom meeting interface showing a presentation on Data Science.

**Screenshot 1: What is Data Science?**

The slide features a Venn diagram with three overlapping circles labeled "Computer Science", "Statistics", and "Business/Domain Knowledge". The intersection of all three is labeled "Data Science".

**Screenshot 2: Lets Discuss Some Scenarios Where Data Science Can Help People**

The slide shows a blue background with the text "Lets Discuss Some Scenarios Where Data Science Can Help People" and an image of hands writing on a document.

**Screenshot 3: Impact of Data Science in various Domains**

The slide displays a flowchart titled "Impact of Data Science in various Domains". The flowchart starts with "Data Science" at the top, branching into "Predictive Analytics", "Prescriptive Analytics", and "Diagnostic Analytics". These further branch into specific applications: "Predictive Analytics" leads to "Marketing", "Finance", and "Healthcare"; "Prescriptive Analytics" leads to "Supply Chain", "Manufacturing", and "Retail"; "Diagnostic Analytics" leads to "Fraud Detection", "Cybersecurity", and "Risk Management".

- Ask the right questions to understand the problem.
- Gather data from multiple sources—enterprise data, public data, etc.
- Process raw data and convert it into a format suitable for analysis.
- Feed the data into the analytic system—ML algorithm or a statistical model.
- Prepare the results and insights to share with the appropriate stakeholders.

Below the main window, there are three additional slides visible in a thumbnail view:

- Data Science Methodology:** A flowchart showing the process from Business Understanding to Evaluation, including steps like Data Collection, Data Understanding, Data Preparation, and Model Deployment.
- Types of Machine Learning Algorithms:** A diagram showing the classification of Machine Learning into Supervised Learning (Regression, Classification) and Unsupervised Learning (Clustering, Association, Outlier Detection).

The Zoom interface includes a top bar with participant names (Harshit Anand, Aryan Shukla, anil singh, Aayush Kumar, Adishah Bhargava), a right sidebar with a list of participants, and a bottom bar with controls like Unmute, Start video, Share, Record, and Chat.

**Pesticides application techniques for pest management**  
**BSc. (Hons) Agriculture 2017-21 Batch**

### **Introduction**

Pesticide application plays an important role in pest management. Proper technique of application of pesticide and the equipment used for applying pesticide are vital to the success of pest control operations. The application of pesticide is not merely the operation of sprayer or duster. It has to be coupled with a thorough knowledge of the pest problem. The use of pesticides involves knowledge not only of application equipment, but of pest management as well.

### **Objective**

1. To keep the pest under check.
2. The objective of pesticide application besides keeping the pest population under check should also be to avoid pollution and damage to the non-targets.
3. To Develop the Skilled professional for plant protection
4. To increase the efficiency of students for better consultancy

### Post-harvest management of horticultural crops Batch 2017-21

#### INTRODUCTION

Post-harvest management are applied to horticultural crops, either to maintain the quality (taste, colour, flavour, texture) or improve the visual appeal. Most important of these treatments are temperature management including the cold chain where the temperature of the crop is reduced rapidly and stabilize temperature after harvesting. Exposing the crop to high or low temperature and application of chemicals after harvest helps in managing/prevent pest and diseases and sprouting occurrence respectively.

Harvested produce must be handled with care at every stage to avoid the mechanical damage and subsequent fungal/bacterial infection. Adopting appropriate post-harvest handling operation will minimize the all ill effects of post-harvest

#### OBJECTIVE OF PROGRAMME

1. PH Loss reduction
2. Value addition
3. Contribution to the Economy
4. Making availability of fruits and vegetables during off seasons
5. Tools for export earnings
6. Employment generation
7. Waste utilization

## **Employability Skills Development Programme, BSc. (Hons.) Agri. Batch 2017-21**

### **Agriculture Waste Management by Vermi Compost**

Vermicomposting technology is known throughout the world, albeit in limited areas. It may be considered a widely spread, though not necessarily popular technology. As a process for handling organic residuals, it represents an alternative approach in waste management, in as much as the material is neither land filled nor burned but is considered a resource that may be recycled. In this sense, vermicomposting is compatible with sound environmental principles that value conservation of resources and sustainable practices. Vermicomposting is akin to composting in that similar feedstock-organic residuals -are used. Both systems utilize microbial activity to break down organic matter in the moist, aerobic environment. Vermicomposting is however faster, produces fewer odors and produces a superior product. In SGT University for reducing the use of synthetic chemicals a unit for vermin compost production is helping to students for enhancing the knowledge of organic culture. Vermicompost (or vermi-compost) is the product of the composting process using various species of worms, usually red wigglers, white worms, and other earthworms, to create a heterogeneous mixture of decomposing vegetable or food waste, bedding materials, and vermicast.

#### **Objective:**

- The students learn waste management process and its environmental and economic benefits.
- The interested students will get to know process of composting of was.
- The course will generate employment and entrepreneurs.
- Organic farming will be encouraged.
- It will help to maintain the environment pollution free and
- Will get the knowledge of biodiversity of local earthworms

#### **Overview:**

Vermicomposting technologies constitute an inter-disciplinary science and techniques applied to agricultural commodities after harvest for the purpose of processing, packaging, storage, distribution, and marketing requirements of consumers in relation to their needs.

#### **Vermi compost unit outcomes:**

1. Students can construct their own compost farm & thereby can generate income.
2. Students/ farmers by using vermicompost in their field can increase the crop yield.
3. Students residing in cities can produce vermicompost in small scale for garden/household plants.
4. They can get the jobs in educational institutes as vermicompost/vermiculture technician.
5. By developing & propagating vermicompost technology he/she will directly or indirectly help to make environmental pollution free, by using vermicompost in the field & thereby increasing crop yield he will help to solve food problems.
6. It will lead towards organic farming & healthy food.
7. In today's world, recycling of garbage has become necessary to sustain our health and environment.

The Moot Court Committee, SGT University- Faculty of Law, Gurugram organized a Workshop on **“ Basics of Moot Court & Memorial Preparation ”** by Ms Astha Chaturvedi, Assistant Professor, on the 7th of May 2021, at 4:00 pm.

The Workshop was moderated by Ms Vasundhara, a student of BA LLB, VI Sem. The guest explained the basics of Moot Court. Further, the guest explained how the moot proposition should be read & what should be our approach while doing the research. The guest also enlightened the students on how the memorial should be made. Further, she also gave tips for oral arguments in the moot court competition. The students learned a lot from this workshop. In the end, the vote of thanks was given by Mr Pranay Prakash, Assistant Professor, Faculty of Law SGT University

Mr. Mohit guided and motivated the students to create video resumes, LinkedIn profiles, and GitHub profiles to improve their professional skills. He also explained how students can prove their technical skills by opting for online courses and certifications. The students were motivated to work towards their dream company, learned how they can apply for a job in big brands confidently.

It was a very informative session for the students and students participated with a lot of zeal and enthusiasm.

The faculty of Engineering and Technology is looking forward to more such webinars in near future.

The screenshot shows a Google Meet interface. The main window displays the Microsoft careers website (careers.microsoft.com/us/en). The website has a navigation bar with links for 'What's new', 'Microsoft Store', 'Education', 'Enterprise', 'Developer', and 'Company'. The 'Company' section is expanded, showing links for 'Careers', 'About Microsoft', 'Company news', 'Privacy at Microsoft', 'Investors', and 'Security'. A video feed of Mr. Mohit Singh is visible in the bottom right corner of the Meet window. The Windows taskbar at the bottom shows the time as 23:13 on 24-05-2021, with a battery level of 45% and network status.
